SUMMARY

Web Developer with 1.5+ years of experience in building, maintaining, and improving real-world web applications. Skilled in HTML, CSS, JavaScript, React.js, with working knowledge of Node.js, Express.js, and MongoDB. Experienced in developing and maintaining 5+ production websites, along with hands-on experience in bug fixing, troubleshooting, UI development, and web project implementation.

WORK EXPERIENCE

QSD Formulations Pvt Ltd — Web Developer (Executive)

Aug 2025 – Present

- Developed, maintained, and improved 5+ production websites across pharmaceutical, cosmetics, and business domains.
- Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, and React.js.
- Implemented website features, UI enhancements, content updates, and functional improvements based on business requirements.
- Diagnosed and resolved UI, functionality, responsiveness, and production bugs to improve website reliability.
- Worked with Node.js, Express.js, and MongoDB while exploring backend development and full-stack implementation.
- Independently developed and managed multiple web projects, taking ownership from development to deployment and maintenance.
- Contributed to ongoing projects including chatbots and an Employee Data Management System.
- Collaborated with team members to understand requirements, troubleshoot issues, and deliver solutions within deadlines.
- Key Skills: HTML · CSS · JavaScript · React.js · Node.js · MongoDB

CNH Technologies Pvt Ltd. –Web developer Intern (Internship)

Feb 2025 – Aug 2025

- Contributed to the design, development, and enhancement of enterprise-grade internal applications for agricultural equipment systems.
- Worked on full-stack development using C#, ASP.NET Core, Entity Framework, and SQL Server.
- Implemented business logic, RESTful APIs, CRUD operations, and frontend-backend integrations.
- Debugged application issues across multiple layers and performed root-cause analysis to implement reliable fixes.
- Optimized database queries and application workflows to improve performance and reliability.
- Developed and maintained unit tests to improve application stability and code quality.
- Assisted with deployment and release workflows across development and testing environments.
- Collaborated in an Agile development environment using Azure DevOps, Git, and GitHub.
- Skills: C# · ASP.NET Core · .NET Framework · Entity Framework · SQL Server · REST APIs · Web API · CRUD · MVC · Authentication & Authorization · Unit Testing · Git · GitHub · Debugging · API Integration

Code Quotient (Training Internship)

July 2024 – August2024

- Practiced arrays, strings, recursion, basic algorithms, debugging, and code optimization.
- Gained exposure to REST APIs, CRUD operations, database interactions, and MySQL.
- Followed structured coding practices with focus on clean code, readability, and technical documentation.
- Skills: Data Structures & Algorithms , Problem Solving, JavaScript / Java / C++ (as applicable), Debugging, Git, GitHub, Agile Methodology, Code Optimization, Technical Documentation

PROJECTS

Production Websites:

- QSD Formulations · Maquillage Wellness · MAK Prints · Tikish Pharmaceuticals · Screenora
Developed, maintained, and enhanced responsive production websites across pharmaceutical, cosmetics, printing, and business domains, with focus on UI development, functionality, responsiveness, bug fixing, and ongoing improvements.

RAG-Based AI Knowledge Assistant — Python, FastAPI, React, LLM, Vector Database

- Built a RAG-powered assistant enabling users to query PDFs/documents using natural language, with document processing, embeddings, semantic search, and LLM-based responses.
- Developed REST APIs with FastAPI and implemented source-aware responses to improve answer relevance and reduce hallucinations

AI Customer Support & Ticket Management System — Python, FastAPI, React, MongoDB, LLM

- Built an AI-powered support system that classifies customer queries, detects sentiment, prioritizes tickets, and generates contextual responses.
- Developed REST APIs with FastAPI and integrated AI-based ticket routing, conversation history, and automated support workflows.

AI Desktop Assistant — Python, LLM API, Speech Recognition, Automation

- Built an AI-powered desktop assistant capable of natural-language conversations, voice commands, web search, application launching, and task automation.
- Integrated LLM-based intent handling with Python automation to execute common desktop tasks through conversational commands.

AI-Powered E-commerce Platform — MERN Stack, MongoDB, REST APIs, LLM

- Developed a full-stack e-commerce platform with user authentication, product catalog, cart, wishlist, and order management.
- Integrated an AI shopping assistant for natural-language product discovery, recommendations, and customer support.

EDUCATION

Btech CSE (Computer Science) 2025

Kurukshetra University Kurukshetra
APIIT SD INDIA , PANIPAT

Matriculations (10th) 2019

CBSE – 2019 DAV Public School

Senior Secondary (12th) 2021

CBSE – 2021 DAV Public School

CERTIFICATIONS

- . Job Ready Cohort — Sheryians Coding School | Jan 2026
- . Industrial Training Program — CodeQuotient | Jun 2024 – Jul 2024

KEY SKILLS

Technical Skills:

C# · C · C++ · ASP.NET Core · .NET Framework · Entity Framework · SQL Server · HTML · CSS · JavaScript · React.js · Node.js · Express.js · MongoDB · Python · REST APIs · Web API · MVC · CRUD · Authentication & Authorization · RAG · LLM Integration · Git · GitHub · Unit Testing · DSA

Professional Skills:

Problem-Solving · Analytical Thinking · Communication · Client & Relationship Management · B2B Sales · Client Acquisition · Business Development · Requirement Analysis · Negotiation · Market Research · Strategic Planning · Team Collaboration · Stakeholder Management
